

Behind The Curtain: Volume 2 Please note, this is Volume 2 December 1968 saw a landmark court case in the appropriately named township of Credit River, Minnesota, USA. First National Bank of Montgomery vs. Daly was an epic courtroom drama and although unsurprisingly, not widely reported either at the time or subsequently, is actually extremely significant. Jerome Daly a lawyer by profession, defended himself against the bank's attempted foreclosure on his \$14,000 mortgage on the grounds that there was no "consideration" for the loan. "Consideration" in legalese, refers to "the item exchanged" and is an essential element of any legal contract. Daly contended that the bank offered "no consideration" for his loan on the grounds that they had "created the money out of thin air" by bookkeeping entry and had therefore not suffered a loss (another relevant point of law) by his refusal or inability to pay back the money. The proceedings were recorded by Justice William Drexler, who had given no credence whatsoever to the defence, until Mr. Morgan, the bank's president, took to the witness stand. To Drexler's and indeed everyone else present's great surprise, Morgan casually admitted under questioning from Daly's lawyer, that the bank routinely "created money out of thin air" for all its loans and mortgages and that this indeed was standard practice in all banks. Presiding Justice, Martin Mahoney declared that, "It sounds exactly like fraud to me," accompanied by nods and murmurs of assent from all around the courtroom. In his summation of the case, Justice Mahoney reported that "Plaintiff (the bank) admitted that it, in combination with the Federal Reserve Bank of Minneapolis, did create the entire \$14,000.00 in money and credit upon its own books by bookkeeping entry. That this was the consideration used to support the Note dated May 8, 1964 and the Mortgage of the same date. The money and credit first came into existence when they created it. Morgan admitted that no United States Law or Statute existed which gave him the right to do this. A lawful "consideration" must exist and be tendered to support the Note." So, the court duly rejected the bank's claim for foreclosure and the defendant kept his house. The implications of this case therefore, should have been far-reaching. If bankers are indeed extending credit without consideration (which they most definitely are) i.e. without backing their loans with real money they actually have stored in their vaults and were entitled to lend, any judicial decision declaring their loans void, would topple the entire worldwide financial and banking system. Since this precedent, many other defendants have attempted to have mortgages and loans nullified using the same defence as Daly, but there has been extremely limited success only. In fact, one judge said, strictly "off the record," "If I let you do that, you and everyone else, it would bring the whole banking system down. I cannot let you go behind the bar of the bank. . . . We are not going behind that curtain! Well suffice to say, we certainly are going on a highly revealing trip "behind the curtain!", so strap-in and be prepared for the ride of your life, as we investigate the sordid and murky history of the world of banking and high finance and the people who run it with an iron fist encased in a velvet glove. This book is an indictment, not just of the totally corrupt financial system that today permeates the whole world, but also of the people that control it. Their crimes against humanity are legion and so far-reaching that their insidious influence now extends into and corrupts virtually every element of society and it is these so-called "banksters" "banker-gangsters, who are responsible for all the death, destruction and misery in the world today.
