

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners with physicians and other healthcare professionals with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice. Audio-Digest Gastroenterology is specifically designed to provide the participant with state-of-the-art information, including, but not limited to, procedures and techniques and/or the diagnosis and management of: Inflammatory Bowel Disease Irritable Bowel Syndrome Gastroesophageal reflux disease Ulcer disease Liver disease Pancreatic disease Cancer within the digestive system Endoscopy Esophageal disease Colon problems Transplantation Nutrition The goal of this program is to improve screening for colorectal cancer (CRC). After hearing and assimilating this program, the clinician will be better able to: 1: Utilize split-dose regimen to improve the quality of bowel preparation. 2: Select the most appropriate bowel preparation with established efficacy and safety. 3: Utilize techniques to improve access to polyps and prevent complications of polypectomy. 4: Characterize the various methods for improving imaging for Barrett esophagus and colon polyps. 5: Recognize the importance of adopting good techniques to improve adenoma detection and dysplasia detection.
