

England was beset with troubles from the four corners of the world, war and revolution were everywhere, Europe was ablaze and Napoleon's audacious experiment in creating a new social order would shake the Georgian Empire to the core. In the new world of equality and liberty, revolution was possible anywhere, this was a new Age. The romantics, the Age of Romanticism, an artistic, intellectual and literal movement which had begun as a reaction to the Industrial Revolution, however, it would grow into an artistic revolt against the aristocratic social and political norms of its age, challenging the new science that was emerging with intense emotion as an authentic source of aesthetic experience. At the dawn of this new era, a man named Fletcher Christian stepped onto the world stage. Christian was a complete unknown from a fallen family, previously of high class but now having to sweat and bleed for a living on the high seas with England's finest and worst Jack Tars. This handsome young man first appeared to us in history as a man with long black loose hair, shirt open and bearing a tortured soul, shouting to the world "I am in hell! I am in hell!" The legend of Fletcher Christian was born and continues to enthrall, portrayed in TV and films by Hollywood's leading male actors; Gable, Brando and Gibson. Byron, Coleridge and Wordsworth were but a small part of the Romantic Movement, yet their names and their works resound around the world still to this day, all of them were inspired by the Bounty story. Yet when all is said and done and one tallies up the dead, it soon loses its Romantic appeal. Approximately one hundred and thirty five people died as a direct result of the mutiny, the island of Tubuai was completely ravaged by the violence, animals and venereal disease the mutineers brought there, if we include those figures we are approaching more than two and a half thousand dead. Women were kidnapped from their homes and families, beaten, raped, passed around. The Tahitian men who volunteered their help were kept in perpetual slavery. What could have been a shining example of a revolutionary egalitarian society, created out of a bid for freedom from the heavy chains of the Georgian Empire turned into a selfish wanton debauchery of mayhem and murderous bloodletting. William Bligh set sail on the Bounty at the dawn of this new era, an era that would reject his notions and understanding of the words duty and honour; the new Romantic era would replace these with the word liberty. What happened on Pitcairn Island was the perfect example of the whole Romantic Movement in a microcosm. The Mutiny on the Bounty is a tale many of us think we know, but it is far darker and far more relevant than many have understood. The mutiny is a warning to us all of what happens when the rules disappear and the real animals inside humans are released. Mutiny on the Bounty & Pandora's Box tells the whole story, from the disastrous crew and ship selection to the mutiny and beyond, for the mutiny was just the beginning of this story, the consequences of which are being paid for by their descendants to this day. This book tells the whole uncomfortable story and attempts to answer all the questions.
