

This module focuses on describing, reproducing, extending, and creating patterns with one or more attribute, and translating patterns from one form to another. Emphasis is also placed on describing equality and inequality, and recording equality using the equal symbol. Also included: materials lists; activity descriptions; questioning techniques; problem-solving examples; activity centre and extension ideas; assessment suggestions; and activity sheets and visuals. All modules include a list of children's books and websites related to the mathematics topics introduced, a detailed introduction to the Hands-On Mathematics program (guiding principles, implementation guidelines, an overview of the skills that students use and develop during mathematics inquiry), and a classroom assessment plan and record-keeping templates.

Devenir Riche En Freelance Sur Le Web: Pourquoi 99% Des Independants Echouent Sur Internet Et Comment Rejoindre Les 1% Qui Generent Des Revenus A 6 Chiffres.
