

The purpose of this study is to explore the pricing strategies that pharmaceutical companies use in order to set their prices along with the elements (determinants) that influence these strategies. So we want to find common strategies and major factors that affect them. Also the relationship between important elements on the pricing decision and common strategies is another purpose of our study. We had four research questions about common pricing strategies, influencing factors and their importance and the relationship between factors and strategies.

Clinical Research Coordinator Handbook, Clinical Osteopathy, The Rationale of the China Question (China Library (rl)), Drugs and Youth: The Challenge of Today, Origins of crime;: A new evaluation of the Cambridge-Somerville Youth Study (Patterson Smith reprint series in criminology, law enforcement, and social problems, no. 49), Foreign Aid and Foreign Policy: Lessons for the Next Half-century: Lessons for the Next Half-century (Transformational Trends in Governance and Democracy), Zeremoniell und monumentale Poesie: Die Entree solennelle Ludwigs XIV. 1660 in Paris (German Edition),
