

Ever since 9/11, a covert WWII has been underway – a battle between the forces of light and dark fighting for the mind/ consciousness and will of Humanity. We are at a Crossroads. This book is about morality and the courage to take back our country, our world and our minds. If you believe Edward Snowden was a courageous hero who took responsibility for himself and did the right thing then this book is for you. You can choose an immoral world in which people condone a police state of total control, depopulation and destroying all that is good. Or a moral world of caring, justice and liberty - that treats people humanely according to the Golden Rule. In this moral world there’s a government of representation and taxes are paid to make sure that government succeeds! This book will examine the evil that has gotten out of control, especially since 9/11. We’ll explore artificial intelligence black goo/ the dark side/ aliens/ the occult /corrupt corporations /the cover-up of a secret space program and who is really running our government. We’ll discuss the national security state and the most plausible explanation for the DOD, CIA, NSA, DOE, DHS covertly using mind control technology, psyops, directed energy weapons and gang stalking on innocent citizens. In other words, this book will explore the AI (artificial intelligence) Hive Mind MATRIX, AI and the occulted government that runs it, the spell of amnesia they cast over the population to get away with their dark plans and how we can wake up, diffuse these plans, and create a moral, caring and loving world. These are exciting times and the occulted government has actually done us a favor in forcing us to wake up and I’m optimistic that humanity will survive this major initiation in growing-up. The individual is at a crossroads to break through the veil of amnesia and discover his/her powerful organic heart nature and creative abilities or if they aren’t ready to take responsibility they can go back to sleep and continue to learn on the wheel of reincarnation and the –prison planet–.
